OBJECTIVE

Computer Science student with a strong foundation in C++, C#, and Python. Passionate about understanding how intelligent systems work and eager to gain hands-on experience through internships, projects, and mentorship in the AI field. Brings a fast-learning mindset, solid programming fundamentals, and genuine enthusiasm to grow into a skilled AI practitioner.

EDUCATION

Bachelor of Science in Computer Science — University of Engineering and Technology (UET), Lahore

1st Year

Intermediate (FSc Pre-Engineering) — Punjab College, Main Campus, Lahore

Lahore Board

TECHNICAL SKILLS

- **Programming Languages:** C++, C#, Python
- **Web Technologies:** HTML, CSS
- **Database:** MySQL
- **Tools & Concepts:** GitHub, Object-Oriented Programming (OOP), AI fundamentals

PROJECTS

Cinema Hall Management System

- Built a system to manage cinema hall operations such as seat booking and show management, applying core programming and database concepts using OOP and MySQL Workbench.

Private Visa Consultancy Application

- Developed an application to support a visa consultancy's client and case management workflow, focusing on organized, easy-to-use data handling.

Space Defender (Game)

- Created a 2D space-shooter style game in C# using Object-Oriented Programming principles, including classes for player, enemies, and game logic.
